21. Using Multimedia in class room presentation.

Bar Charts

- Bar charts are used for comparing the quantities of different categories or groups. Values of a category are represented with the help of bars and they can be configured with vertical or horizontal bars, with the length or height of each bar representing the value.

Favourite Colour

Tree Maps

- A tree map is a visualization that displays hierarchically organized data as a set of nested rectangles, parent elements being tiled with their child elements. The sizes and colours of rectangles are proportional to the values of the data points they represent.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter referred to as "MoU") entered into on 29th day of July 2020 by and between:

National Highways Authority of India (NHAI) which expression shall, unless repugnant to the context or meaning thereof be deemed to mean and include its successors and permitted assigns, of the First party;

AND

The Devisihani Venkata Ramana & Dr. Hima Sekhar MIC College of Technology, Kanchikacherla (hereinafter called as MICT, Kanchikacherla which the expression shall unless repugnant to the context or meaning thereof be deemed to mean and include its successors and permitted assigns) of the Second Party.

WHEREAS,

Both the MICT, Kanchikacherla and NHAI are desirous of working together with mutual cooperation for dissemination of respective expertise in civil/highway engineering field through the road infrastructure development.

NHA

NHA shall provide the list of potential candidate National Highway stretches for adopting by the Technical Institute;

1. NHA Shall provide the list of potential candidate National Highway stretches for adopting by the Technical Institute;
2. NHA shall facilitate availability of relevant data required with specific reference to the above stretches through its field office/consultant/concessionaire/contractor engaged in the project ;
3. NHA will nominate an officer as a point of contact for all correspondence in carrying out the defined objective;
4. NHA shall facilitate the faculty, researchers and students of the institute to give access to the site of the identified stretch being adopted by the Technical Institute, relevant documents for the purpose of activities to be carried by these intellectuals of the Institute;
5. NHA through its field office/Consultant/Concessionaire/Contractor engaged in the project, as per reasonable requirement, will disseminate and familiarize the latest trends and know how in highway/transportation sector in general and the identified project in specific to the authorized faculty, researchers and students of the Institute;
6. NHA may suitably adopt the research output and feedback received from the Technical Institute in practice for qualitative improvement as deemed fit at appropriate stage of implementation.
7. NHA may support creation of Lab infrastructure in the Institute and can sponsor relevant research project that helps in using alternative resource material and improving quality of roads.
8. The NH stretch adopted can be co-branded with the associated technical institute by NHA

MICT, Kanchikacherla

- a. The institute shall adopt stretch(es) of NHs as specified in the Appendix-1 as a voluntary initiative.
- b. The Technical Institute through its authorized faculty, researchers and students will carry out periodic investigation and give suitable suggestions for improving the efficiency of existing highway asset inter alia covering the following aspects:
 - (i) Improvements in safety provision by removing existing deficiencies;
 - (ii) Improvements in continual maintenance of the stretch using new technologies;

NOW, THEREFORE, IT IS HEREBY AGREED BY THE PARTIES AS FOLLOWS:

1. INTENT:

National Highways Authority of India (NHAI) intends to associate MICT, Kanchikacherla who shall voluntarily contribute its share of experience for betterment of the highway infrastructure.

2. SCOPE OF THE MoU

The primary scope of MoU inter alia includes the following:

- (i) NHAI shall facilitate the faculty, researchers and students of the Institute to familiarize with the latest trends in the highway/transportation sector with a common objective of sharing the knowledge in their respective domain. This will, in one hand, facilitate to bridge the industry-institution gap and familiarize students with the latest trends in industry and on the other hand the research output could be suitably adopted in practice by NHAI.
- (ii) The Institute shall adopt nearby stretches of NHs as specified in the Appendix-1 as a voluntary initiative under ambit of Institutional Social Responsibility (ISR). The list of stretches may be modified by deletion/addition by mutual consent of NHAI and the Technical Institute.
- (iii) The adopted stretch may be used as a field of study for faculty, researchers and students.
- (iv) NHAI shall offer internship to 05(five) number of under graduate/postgraduate students of the Institute periodically and also extend stipend
- (v) NHAI shall pay stipend @ Rs.8000 (Rupees Eight Thousand only) per month for undergraduate students and @ Rs. 15,000 (Rupees Fifteen Thousand only) per month to Postgraduate students in Transportation Engg., Structural Engg., Geotechnical Engg., Hydraulics Engg., Infrastructure Systems, Earthquake Engg., Urban & Rural Planning, Disaster Mitigation & Management, etc. All other arrangements including stay shall be responsibility of the Institute. However, depending upon availability, NHAI will extend stay and transportation facility to the interns within the project jurisdiction on best effort basis.

3. Roles and Responsibilities:

The scope of this MoU shall be carried out in a collaborative mode between NHAI and the MICT, Kanchikacherla. The Roles & Responsibilities of NHAI and the MICT, Kanchikacherla in performing the defined objective shall be as follows:

Devised by
MIC College of Technology

7

- (iii) Localized solutions for removal of congestion points thereby increasing the average speed of traffic flow;
 - (iv) Improvements in the riding comfort through cost effective measures based on innovative technologies on practices applicable in the area;
 - (v) Viability of new way side amenities for road user based on the existing traffic pattern and user expectations;
 - (vi) Potential solutions to old recurring problems based on local experience etc.
- c. The Institute may also associate with the Consultants/NHAI during conceptualization, design and project preparation of new projects and suggest the relevant parameters and innovations based on experience specific to the site climate, topography and resource potential for better socio economic outcome
- d. The Technical Institute will nominate a coordinator as a point of contact for all correspondence in carrying out the defined objective as well as inform, from time to time.

4. EFFECTIVE DATE AND PERIOD OF MoU

This MoU shall come into effect for all its intents and purposes from the immediate effect and shall remain valid for a period of 5 years from the date of signing unless terminated earlier by mutual consent by either party by giving 60 days' notice in writing to the other party.

APPENDIX-1

The Institute shall adopt the following stretch of NHs as a voluntary initiative under the ambit of Institutional Social Responsibility (ISR).

S. No	Details of the stretch (From Chainage to Chainage)	NH No	Length (Km)	Stage of implementation (completed/under construction/under maintenance/project preparation)	Remarks
1	6-Laning of Nandigama Bypass on NH-65 (From Km 220.700 to Km 227.480)	65	6.78	Under Construction	
1	4- laning of Nandigama-Vijayawada- on NH-65 (From Km 227.480 to Km 238.200)	65	10.72	Under Maintenance	

Above list of stretches may be modified by deletion/addition by mutual consent of NHAI and the Technical Institute.

REPORT

Event Type : Placement training programme
Date/ Duration : 29.01.22 to 2.2.22
Resource Person From : Infy/Tq, Software Company, Hyderabad
Target Audience : III B Tech (all departments)

Objective of the Event :

• This Java and C Training course covers the fundamentals of programming Languages and how to apply it to real-world applications.

• To understand the concepts and constructs of Java and C

Course Objectives:

- To learn the fundamentals of object-oriented programming.
- To implement object-oriented concepts using Java.
- To understand how to design object-oriented applications using Java
- To learn about the computer systems, computing environments, developing of a computer program and Structure of a C Program.
- To assimilate about pointers, dynamic memory allocation and know the significance of Preprocessor. To assimilate about File I/O and significance of functions.

Description: Java and C

- Introduction to Programming
- Data Types & Variables
- Arrays and Strings
- Unions and Structures
- Features of Java
- Conditional Statements
- Operators
- Class and Objects
- Loops
- Files

Feedback/Suggestions: Students participated in enthusiastic manner. Planned to organize every year.
