Department: ECE

Academic Year: 2018-19

Topic: Aptitude, Reasoning and verbal Ability

Date of the Event: 26.06.2018-30.06.2018

Target Audience: B. Tech (CSE, ECE, MECH, CIVIL) Students

Total no of Participants: 130

Description:

The Department of Training & placement cell organized "Aptitude, Reasoning and verbal Ability", and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

Outcomes of the Event:

After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of Logical Reasoning Skills
4. Acquire satisfactory competency in use of Verbal Reasoning

Course Name: *Aptitude Reasoning & Verbal ability.*

Duration of the Course: *35 hrs*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

Yes it is useful for me to crack placements and Gate Exam.

2. Please give your comments on the process/methods during the program.

scheduling of classwork is good

Training in various aspects likes reasoning, verbal, Time & date etc is awesome.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Time & date Calculations

Verbal in Relations Calculation

Aptitude in upstream & Down Stream concepts

4. In what input areas would you prefer to have further training?

Coding training (Technical) is required

5. Further Comments (if any)

Description:

The Department of Training & placement cell organized "Coding classes (Phase-I & Phase-II)", and is specially meant for engineering final students. During the Coding phase the design of the software system is translated into a programming language format which is used by a computer, this is the main objective of coding. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Duration of the Course: *35 hrs.*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

Coding in C & C++ was done and useful in applying logical thinking.

2. Please give your comments on the process/methods during the program.

Shortcuts they teach were good.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Pointers, structures and programming area is good and interesting.

4. In what input areas would you prefer to have further training?

I also would like have training in JAVA & PYTHON also.

5. Further Comments (if any)

All is good.

Academic Year: 2018-19

Name of the Event: Infosys Training

Date of the Event: 07-12-2018 to 13-12-2018

Resource Person: Talentio Solutions India Pvt Ltd

Name of the coordinator: **K.Veenanand**
Asst Professor, Dept of ECE

Target Audience: IV B. Tech Students

Total no of Participants: 26

Description:

The Department of Training & placement cell organized “**Infosys Training**”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcome of event: After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Develop effective communication skills (spoken and written).

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

work shop was good and learnt practical execution well.

2. Please give your comments on the process/methods during the program.

Hands on experience was good and worth training our Juniors also.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Arduino connections, IDE software enabling and programming is also good.

4. In what input areas would you prefer to have further training?

Arduino with python coding training is required.

5. Further Comments (if any)

About the College:

Devineni Venkata Ramana & Dr. Hiru Sekhar MIC College of Technology was established in 2002, at Kanchikacherla, 35km away from Vijayawada on NH-9. It was started by Dr.M.V.RamanaRao, CMD, MIC Electronics Ltd., an MNC, pioneered in making the giant LED screens, Solar Eco friendly LED lighting systems 3D Hologram and offering the solutions to global telecom industry. The institute has the mission to pro-mote quality technical education, give the nation self-reliant engineers & entrepreneurs and bridge the gap between the industry and institution. The institute is located in sylvan surroundings with excellent infrastructure, state of art labs, well stocked library, sports facilities, modern classrooms, seminar halls and other facilities.

The College is affiliated to JNTUK, Kakinada, approved by AICTE and also an ISO 9001:2008 certified institution. The institute is offering 5 UG programmes in engineering with 780 intake, 6 PG programmes M.Tech, MBA & MCA with 456 intake and Diploma programmes in EEE, Mech, ECE, Civil engineering with an intake of 240.

About the Department:

The Electronics & Communication Engineering department was started with UG programme in 2002 with an annual intake of 60. Now, the department is offering UG programme with 180 intake and PG programme with two specializations Digital Electronics and Communication systems and VLSI & Embedded Systems with an intake of 18 and 36 respectively. The vision of the department is to train the students with latest updates in the field of Electronics & Communication Engineering and is striving for the quality of education.

The department has well qualified, experienced & dynamic faculty along with experienced & skilled technical supporting staff who spearhead the process of achieving the vision of the department. The

department has well equipped labs & infrastructure. Till now 9 batches have passed out with more than 95 pass percentage. Faculty R&D having DST sponsored project worth of 18.3lacs and many published IEEE papers and International Journals. Many of our students' technical papers have been published in various National & international technical symposiums. A good number of students are being placed through campus placements in major IT and core MNC companies every year.

About the Programme:

The scope of the workshop ranges from the fundamental properties Design and making of printed circuit board, soldering components on the PCB and verification of circuit function etc. software session has been done by PCB wizard software.practical session has been conducted which includes etching,drilling,cleaning,soldering of components on pcb as per the circuit diagram and verifying the functionality of the circuit.

Important Dates

Workshop On : 28th Feb To 1st Mar 2019

Resource Persons:

Experts from APSSDC

Eligibility Criteria:

This programme is open to all AICTE approved engineering college Teaching Staff members and students pursuing their UG & PG courses, R&D scholars & Professionals from R&D Industry. Selection of participants will be on first come first serve basis.

Description:

- ❖ Andhra Pradesh State Skill Development Corporation along with Electronic society for proactive and innovative communication engineers (espice) of MIC College of Technology, Kanchikacherla, conducted the PCB Design workshop on Designing and making of Printed Circuit Board, Soldering components on the PCB and verification of circuit function etc.
- ❖ Three days training includes Forenoon and Afternoon Sessions, which includes hands on experience.
- ❖ PCB wizard Software training,
- ❖ Circuit simulation and two electronic circuits designing.
- ❖ PCB making, screen printing, etching of PCB, Soldering of components on to the PCB are conducted.
- ❖ Each section has 62 students, who are beneficial by this workshop and a total of 186 students are trained during these 9 days of workshop.

Target Audience: II B.Tech – ECEA, B, C students.

Target Audience: IV B. Tech Students

Total no of Participants: 100

Description:

The Department of Training & placement cell organized “**WIPRO Training**”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Topics covered: Wipro Turbo Quants, Wipro Turbo Verbal English, Wipro Turbo Logical Reasoning and Wipro Turbo Technical Computer coding.
