Department of Electronics & Communication Engineering

Academic Year: 2019-20

Name of the Event: Aptitude, Reasoning and verbal Ability

Topic: Aptitude, Reasoning and verbal Ability

Date of the Event: 13-06-2019 to 22-06-2019

Name of the coordinator: Mr. K.Veenanand

Asst Professor, Dept of ECE

Target Audience: IV B. Tech Students

Total no of Participants: 106

Description: The Department of Training & placement cell organized “**Aptitude, Reasoning and verbal Ability**”, and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

Outcomes of the Event: After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Acquire satisfactory competency in use of VERBAL REASONING

Feedback Form

Course Name: *Aptitude, Reasoning & Verbal ability*
Duration of the Course: *70 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

The workshop helped me to attend many exams

2. Please give your comments on the process/methods during the program.

The methods thought during the program are useful.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Input areas of aptitude

4. In what input areas would you prefer to have further training?

I prefer to have ^{further} training on aptitude and verbal ability

5. Further Comments (if any)

Good for future guidance

Name of the Event: Coding Classes (Phase - I and Phase -II)

Date of the Event: 24-06-2019 to 28-06-2019 (Phase - I) &
01-07-2019 to 04-07-2019 (Phase - II)

Number of Hours: 30Hrs + 15Hrs

Name of Resource Persons: Madhu Tech Skills

Name of the coordinator: Mr. K.Veenanand,
Asst Professor, Dept of ECE

Target Audience: IV B. Tech Students

Total no of Participants: Phase-I-51, Phase-II-28

Description:

The Department of Training & placement cell organized "Coding classes (Phase-I and Phase-II)", and is specially meant for Engineering final year students. During the Coding phase the design of the software system is translated into a programming language format which is used by a computer, this is the main objective of coding. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcomes of the Event:

- Techniques For Solving Problems
- Basic Computational Concepts And Elementary Data Structures
- The Edit-Compile-Link-Run Cycle From A User Point Of View
- Testing Strategies
- The Main Activities Of Software Development And Their Interactions, And Some Of The Major Problems Of Software Development

Feedback Form

Course Name: *Coding classes (phase-I)*
Duration of the Course: *70 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

*The workshop helped me to learn 'C' and C++
languages*

2. Please give your comments on the process/methods during the program.

*The methods ^{useful} during the program are, it
helped in doing practice in the system.*

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Programme languages are most useful

4. In what input areas would you prefer to have further training?

*I like to have further training on practicing
different programmes in languages*

5. Further Comments (if any)

*It had helped me to build my future in
software*

Feedback Form

Course Name: *coding classes (phase - II)*

Duration of the Course: *28 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

The workshop helped me to learn Java programming and practicing programmes

2. Please give your comments on the process/methods during the program.

The programme helped me for further guidance in getting knowledge on coding programmes

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

The areas belonging to coding classes are most useful

4. In what input areas would you prefer to have further training?

I like to have further training in designing coding in various fields

5. Further Comments (if any)

Helpful to get good job in coding

Department of Electronics & Communication Engineering

Academic Year: 2019-20

Academic Year: 2019-2020

Type of the event: **Workshop on Fundamentals of Embedded Systems**

Date of the event: 05 to 07, Sep 2019

Name of the coordinators:

Mr B R K Singh, Assoc professor, Dept of ECE

Description:

- ❖ TINKER SPACE Engineers, BANGLORE along with Electronic society for proactive and innovative communication engineers (espice) of MIC College of Technology, Kanchikacherla, conducted the **Fundamentals of Embedded Systems** workshop on Basic Knowledge of Embedded Systems, Basic Knowledge of Processor, Programming in Embedded Systems. Application in Embedded Systems.
- ❖ This training includes Forenoon and Afternoon Sessions, which includes hands on experience.
- ❖ System • Embedded System • Components • Classifications • Processors • Other Hardware • Software • Applications
- ❖ who are beneficial by this workshop and a total of 115 students are trained during these 3 days of workshop.

Target Audience: III B.Tech – ECE A,B students.

Feedback Form

Course Name: *workshop on Fundamentals of E.S*

Duration of the Course: *21 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

The workshop is helpful in knowing fundamentals of Embedded Systems

2. Please give your comments on the process/methods during the program.

The methods are helpful to build careers in Embedded Systems

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Input areas like Design of chips are most useful

4. In what input areas would you prefer to have further training?

I like to have further training in Core Side i.e in designing chips using VLSI

5. Further Comments (if any)

Helpful to have good careers in Hardware Side i.e designing and testing.

Objective of the Course: To help students improve their C programming skills and also to help develop logic for the given problem. It will help students to face placement.

Outcome of the Course: Students will be able to develop C programs for the given problem.

CONTENTS:

- Information about basic concepts of the C programming language such as structure of C programs, usage of different data types and their variables followed by usage of operators with the variables was imparted to students.
- Information on decision control statements such simple if, if- else and if-else-if ladder and go to statement was imparted to students.
- Information on loops such as while loop, do-while loop and for loop and break and continue was imparted to students. Students were made to do the programs on them and some prominent problems were solved. Instruction on usage of functions in the C programming language was given to students. Also the different parameter passing techniques i.e. pass by value and pass by reference methods were discussed. Students were made to execute programs on these techniques.
- The concept of recursion was introduced to students. Programs on some of the most prominent problems on recursion were taught to students. Followed by introduction to arrays in C which covered utilization of array as function parameter.
- The concepts of Matrix were instructed to students. Operations on arrays and matrix were taught. Students were made to execute the programs on arrays and matrices.
- Concept of Strings was introduced to students. Different operations on strings using inbuilt functions and without using in-built functions were taught to students.
- Concept of pointers was introduced to students. Operations using pointers was taught. Usage of pointers as

function parameters was told to students.

- Students practiced the programs on these concepts. Advanced concept in C i.e. dynamic memory allocation using pointers and little introduction to data structures was given to the students.
- Questions related to placement were practiced with explanation to the solutions.

Feedback / Suggestions: Students are participated in enthusiastic manner. Planned to organize every year.

Feedback Form

Course Name: *Inhouse training*

Duration of the Course: *40 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

The workshop was useful to learn many computer languages

2. Please give your comments on the process/methods during the program.

The methods are digital classes, practical work in systems

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Practice work in systems i.e learning programmes in systems

4. In what input areas would you prefer to have further training?

I like to have further training in advanced computer programmes like python etc

5. Further Comments (if any)

This workshop will be helpful to get good job in software field

DVR & Dr HS MIC College of Technology
Kanchikacherla, NTR Dt.
Andhra Pradesh, India - 521180

About the College:

Devineni Venkata Ramana & Dr. Hima Sekhar MIC College of Technology was established in 2002, at Kanchikacherla, 35km away from Vijayawada on NH-9. It was started by Dr.M.V.RamanaRao, CMD, MIC Electronics Ltd., an MNC, pioneered in making the giant LED screens, Solar Eco friendly LED lighting systems 3D Hologram and offering the solutions to global telecom industry. The institute has the mission to promote quality technical education, give the nation self-reliant engineers & entrepreneurs and bridge the gap between the industry and institution. The institute is located in sylvan surroundings with excellent infrastructure, state of art labs, well stocked library, sports facilities, modern class rooms, seminar halls and other facilities.

The College is affiliated to JNTUK Kakinada, approved by AICTE and also an ISO 9001:2008 certified institution. The institute is offering 5 UG programmes in engineering with 780 intake, 6 PG programmes M.Tech, MBA & MCA with 456 intake and Diploma programmes in EEE, Mech, ECE, Civil engineering with an intake of 240.

About the Department:

The Electronics & Communication Engineering department was started with UG programme in 2002 with an annual intake of 60. Now, the department is offering UG programme with 180 intake and PG programme with two specializations Digital Electronics and Communication systems and VLSI & Embedded Systems with an intake of 18 and 36 respectively. The vision of the department is to train the students with latest updates in the field of Electronics & Communication Engineering and is striving for the quality of education.

The department has well qualified, experienced & dynamic faculty along with experienced & skilled technical supporting staff who spearhead the process of achieving the vision of the department. The

department has well equipped labs & infrastructure. Till now 9 batches have passed out with more than 95 pass percentage. Faculty R&D having DST sponsored project worth of 18.3lacs and many published IEEE papers and International Journals. Many of our students' technical papers have been published in various National & international technical symposiums. A good number of students are being placed through campus placements in major IT and core MNC companies every year.

About the Programme:

The scope of the workshop ranges from the fundamental properties Design and making of printed circuit board, soldering components on the PCB and verification of circuit function etc. software session has been done by PCB wizard software. practical session has been conducted which includes etching, drilling, cleaning, soldering of components on pcb as per the circuit diagram and verifying the functionality of the circuit.

Important Dates

Workshop On : 09th Sep To 21st Sep 2019

Eligibility Criteria:

This programme is open to all AICTE approved engineering college Teaching Staff members and students pursuing their UG & PG courses, R&D scholars & Professionals from R&D; Industry. Selection of participants will be on first come first serve basis.

Academic Year: 2019-20

Academic Year: 2019-2020

Name of the event: *Workshop on PCB Design*

Date of the event: 09th Sep To 21th Sep 2019

Name of the coordinators:

1. Mr B R K Singh
2. Mr TMS Bharadwaj

Description:

- ❖ Andhra Pradesh State Skill Development Corporation along with Electronic society for proactive and innovative communication engineers (espice) of MIC College of Technology, Kanchikacherla, conducted the PCB Design workshop on Designing and making of Printed Circuit Board, Soldering components on the PCB and verification of circuit function etc.
- ❖ Three days training includes Forenoon and Afternoon Sessions, which includes hands on experience.
- ❖ PCB wizard Software training.
- ❖ Circuit simulation and two electronic circuits designing.
- ❖ PCB making, screen printing, etching of PCB, Soldering of components on to the PCB are conducted.
- ❖ Each section has 64 students, who are beneficial by this workshop and a total of 192 students are trained during these 9 days of workshop.

Target Audience: II B.Tech – ECEA, B, C students.

Feedback Form

Course Name: *workshop on PCB Design*
Duration of the Course: *33 hours*

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

The workshop helped in shouldering and reshouldering the PCB board

2. Please give your comments on the process/methods during the program.

The process during the programme was to design hardware kits using electronic components

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Areas like designing PCB kits

4. In what input areas would you prefer to have further training?

I like to have further training in designing PCB kits in large industrial areas

5. Further Comments (if any)

workshop helpful in industrial jobs

3 Day Workshop on *PCB* *Hardware Training*

II B. Tech Students

02/02/2020 to 08/02/2020

Objectives

PCB WIZARD SOFTWARE TRAINING
CIRCUIT SIMULATION
TWO ELECTRONIC CIRCUITS DESIGNING
PCB MAKING
SCREEN PRINTING
ETCHING OF PCB

Department of Electronics and Communication Engineering Academic Year: 2019-20

Academic Year: 2019-2020

Name of the event: *PCB Hardware Training*

Date of the event: 02/02/2020 to 08/02/2020

Name of the coordinators:

1. Mr B R K Singh

2. Mr TMS Bharadwaj

Description:

- ❖ Micro Link Technologies along with Electronic society for proactive and innovative communication engineers (espice) of MIC College of Technology, Kanchikacherla, conducted the PCB hardware training.
- ❖ The one week training includes Forenoon and Afternoon Sessions, which includes hands on experience.
- ❖ On first day, PCB wizard Software training,
- ❖ On other day, circuit simulation and two electronic circuits designing.
- ❖ Remaining days, PCB making, screen printing, etching of PCB, Soldering of components on to the PCB are conducted.
- ❖ Each section has 64 students, who are beneficial by this workshop and a total of 192 students are trained during these 7 days of workshop.

Target Audience: II B.Tech – ECEA,B,C students.

Feedback Form

Course Name: PCB Hardware training

Duration of the Course: 35 hours

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

It is very helpful to know hardware

2. Please give your comments on the process/methods during the program.

Practical sessions for soldering is very interesting

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Pictorial methods are very helpful

4. In what input areas would you prefer to have further training?

Need more sessions in practical manner.

5. Further Comments (if any)

DEPARTMENT: Training and Placement

DATE: 16-07-2019

ACADEMIC YEAR: 2019-20

ORIGINATOR	PRINCIPAL
CIRCULATED TO	HODs, Faculty and IV B. Tech Students – ECE, CSE & EEE

All the HOD's, staff and students are here by informed that the training and placement cell is conducting training program on Python Programming Training for IV Year student's from 19-07-2019 to 27-07-2019. In this regard, all the faculty and students are here by informed to utilize this opportunity. The training schedule is given below.

Timings: 09.15 AM-12.30 PM (Fore noon)

01.15 PM-04.30PM (After noon)

Venues: CSE seminar Hall- CSE & ECE Batch 1

ECE seminar Hall- CSE & ECE Batch 2

EEE seminar Hall- EEE

Department of Electronics & Communication Engineering

• Academic Year: 2019-20 •

Name of the Event: PYTHON PROGRAMMING

Date of the Event: 19-07-2019 to 27-07-2019

Resource Person: Talentio Solutions India Pvt Ltd

Name of the coordinator: Mr. K.Veenanand

Asst Professor, Dept of ECE

Target Audience: IV B. Tech Students

Total no of Participants: 100

OBJECTIVE: The course is designed to provide basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language.

OVERVIEW: Python is a widely used general-purpose, high level programming language. It was created by Guido van Resume in 1991 and further developed by the Python Software Foundation. It was designed with an emphasis on code readability, and its syntax allows programmers to express their concepts in fewer lines of code.

WHY TAKE THIS COURSE: Python has been voted for the most favorite programming language of all time. It is undoubtedly beating other programming languages. It has been used for developing almost every kind of applications whether it is web applications or game applications. Numerous programmers have increased the use of Python programming languages and it is certainly used worldwide. Python programmers would be the most demandable in the future of IT industries which makes Python future brighter.

LEARNING OUTCOMES

After completing this course the students will be able to demonstrate the knowledge and ability:

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples and dictionaries in Python programs.
- To learn how to identify Python object types.
- To learn how to use indexing and slicing to access data in Python programs.

Feedback Form

Course Name: Python Programming

Duration of the Course: 30 hrs

(Please do not write your name. You are free to respond objectively)

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

It is very useful to get job in software field.

2. Please give your comments on the process/methods during the program.

Digital classes are very helpful.

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

Practicle sessions are very interesting

4. In what input areas would you prefer to have further training?

need more practicle sessions to understand

5. Further Comments (if any)

DEPARTMENT: Training and Placement

DATE: 06-09-2019

ACADEMIC YEAR: 2019-20

ORIGINATOR	PRINCIPAL
CIRCULATED TO	HODs, Faculty and IV B. Tech Students – ECE, CSE & EEE

All the HOD's, staff and students are here by informed that the training and placement cell is conducting training program on WIPRO Specific Training for IV Year student's from 09-09-2019 to 16-09-2019. In this regard, all the faculty and students are here by informed to utilize this opportunity. The training schedule is given below.

Timings: 09.15 AM-12.30 PM (Fore noon)

01.15 PM-04.30PM (After noon)

Venues: CSE seminar Hall- CSE & ECE Batch 1

ECE seminar Hall- CSE & ECE Batch 2

EEE seminar Hall- EEE

Department of Electronics & Communication Engineering

Academic Year: 2019-20

Name of the Event: WIPRO Training

Date of the Event: 09-09-2019 to 16-09-2019

Resource Person: Talentio Solutions India Pvt Ltd

Name of the coordinator: Mr. K.Veenanand
Asst Professor, Dept of ECE

Target Audience: IV B. Tech Students

Total no of Participants: 110

Description:

The Department of Training & placement cell organized “WIPRO Training”, and is specially meant for engineering final year students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual’s personality) is an intangible idea in which the qualities like aptitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person’s work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies.

The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Topics covered: Wipro Turbo Quants, Wipro Turbo Verbal English, Wipro Turbo Logical Reasoning and Wipro Turbo Technical Computer coding.
