**Target Audience:** IV B. Tech Students

**Total no of Participants:** 14

### **Description:**

The Department of Training & placement cell organized “CCCTraining”, and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. Students who have completed this course will get a basic idea about email, internet search, and business concepts. This is also a beginner’s course for people looking to do some higher courses in computer science. The topics for this course have been selected with care to give the students a clean concept. Overall, it’s a rudimentary course designed to provide awareness about information technology.

### **Course contents:**

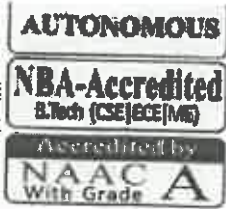

- 1:** Introduction to computer concepts
- 2:** Introduction to Operating systems
- 3:** Basic concepts about Word
- 4:** Elementary concepts of Spreadsheets
- 5:** Introduction to the Internet, web browsers and WWW
- 6:** Communication and Collaboration
- 7:** Application of presentation
- 8:** Application of Digital Financial Services

*(Please do not write your name. You are free to respond objectively)*

1. Please give your comments on the usefulness of the Workshop/guest Lecture/Seminar.

*In the seminar section in ccc training gives me a lot of knowledge and helps me to improve coding skills.*

2. Please give your comments on the process/methods during the program.

*They taught me very simple methods to understand the coding skills.*

3. What input areas were most useful to you ("which you have learnt/experienced during the programme)?

*like written many programs and coding skills.*

4. In what input areas would you prefer to have further training?

*Python programming, Gate coaching*

5. Further Comments (if any)

### **Description:**

The Department of Training & placement cell organized "Infosys Training", and is specially meant for engineering final students. The sole objective of imparting aptitude training is to make students able to solve various factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Logical reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student's critical thinking skills, as well as their ability to use their own knowledge to solve a problem. Soft Skills (a vital portion of an individual's personality) is an intangible idea in which the qualities like attitude, ability, integrity, reliability, positivity, flexibility, dependability, punctuality, management, cooperation, habits and practices are combined proficiently to capitalize on a person's work efficacy. Soft Skills do the work of combining all these components in accurate share into skills and shaping them into competencies. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

**Outcome of event: After completing this training course, students will be able to**

**Academic Year:** 2018-19

**Topic:** Basics of Electronics

**Date of the Event:** 4.09.2018 to 7.09.2018

**Target Audience:** B. Tech EEE branch students

**Name of the coordinator:** Mr M.Tharun

Asst. Prof, Dept. of EEE

**Total no of Participants:** 22

### **Objective of the event:**

The Department of Training & placement cell organized “Veda –IIT Training”, and is specially meant for engineering final students of Electronics & communication Engineering & Electrical & Electronics Engineering. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. This program is aimed to familiarize students on Basic Electronics & Communication subjects. The course covers Basic concepts and programming ability.

**Topics covered:** Basic Electronics, Digital Design & Number Systems, 8086 Microprocessor & 8051 Microcontroller, C Programming, Aptitude & VLSI.

**Outcome of event:** After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Evaluate the student's knowledge in Digital, Microprocessors, C Programming
