**A Report of Two-day Workshop on“Amazon Web Services” held
on 16.11.2022 and 17.11.2022.**

The department of Computer Science and Engineering organized aTwo-dayWorkshop on
“AmazonWeb Services”held on16.11.2022 and 17.11.2022.

The AWS EssentialsWorkshop was organized with the following objectives:

1. To introduce participants to Amazon Web Services (AWS) and its core services.
2. To provide hands-on experience in setting up and managing AWS resources.
3. To educate participants about best practices in cloud computing and security.
4. To equip participants with foundational AWS knowledge for their professional development.

The AWS Essentials Workshop successfully introduced participants to Amazon Web Services, equipping them with essential knowledge and skills for cloud computing. The engaging sessions, hands-on labs, and interactive discussions contributed to a rich learning experience. We hope that the knowledge gained during this workshop will benefit participants in their future endeavors and encourage them to explore AWS further.

REPORT

Name of the Event: Coding Classes (Phase - I and Phase -II)

Date of the Event: 24-06-2019 to 28-06-2019 (Phase – I) and
01-07-2019 to 04-07-2019 (Phase – II)

Number of Hours: 30Hrs + 15Hrs

Name of Resource Persons: Madhu Tech Skills

Target Audience: IV B. Tech Students

Description:

The Department of Training & placement cell organized “Coding classes (Phase-I and Phase-II)”, and is specially meant for Engineering final students. During the Coding phase the design of the software system is translated into a programming language format which is used by a computer, this is the main objective of coding. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

Outcomes of the Event:

- techniques for solving problems
- basic computational concepts and elementary data structures
- the edit-compile-link-run cycle from a user point of view
- testing strategies
- the main activities of software development and their interactions, and some of the major problems of software development

REPORT

Name of the Event: Aptitude, Reasoning and verbal Ability

Topic: Aptitude, Reasoning and verbal Ability

Date of the Event: 13-06-2019 to 22-06-2019

Target Audience: IV B. Tech Students

Description:

The Department of Training & placement cell organized “Aptitude, Reasoning and verbal Ability”, and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

Outcomes of the Event: After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Acquire satisfactory competency in use of VERBAL REASONING
