## REPORT

The Bridge Courses organized by the Department of BED aimed at providing fundamental knowledge essential for the successful progression of I BTech students into their respective disciplines. These courses were conducted collaboratively by multiple departments to ensure a comprehensive coverage of essential subjects.

The bridge courses encompassed key foundational topics including Mathematics, Physics, Chemistry, and Programming Fundamentals. Sessions were designed to reinforce core concepts necessary for the upcoming semesters in the BTech curriculum. Specific topics covered within each subject were:

Mathematics: Algebra, Calculus, Differential Equations.

Physics: Mechanics, Thermodynamics, Electricity, and Magnetism.

Chemistry: Atomic Structure, Chemical Bonding, Organic Chemistry Basics.

Programming Fundamentals: Introduction to Programming, Data Structures, and Algorithms.

A total of 446 students benefited by this session.

## REPORT

A training on “SOFT SKILL DEVELOPMENT “ from the agency “ GILLETTE INDIA” is scheduled for IV year B.Tech eligible students of all branches on 10.2.2020.

### Description:

This report provides an overview of soft skills, including their definition, importance, and how to learn them. Soft skills are personal attributes that enable individuals to effectively communicate, collaborate, and interact with others in various settings. The seven essential soft skills covered in this report are communication, teamwork, problem-solving, adaptability, time management, leadership, and work ethic.

The importance of soft skills cannot be overstated, as they are highly sought after by employers in almost all industries. In fact, research shows that soft skills are often more important than technical skills when it comes to career success. Soft skills help individuals build positive relationships with others, navigate complex situations, and effectively lead and manage teams.

To learn soft skills, individuals can participate in various training programs, including workshops, online courses, and coaching sessions. Additionally, practicing and applying these skills in real-life situations can help individuals improve their soft skills and gain confidence.

### Outcomes of the Event:

Overall, the Students gained the importance of soft skills in personal and professional success and provide valuable insights into how to develop these skills. By focusing on these essential soft skills, individuals can enhance their communication, problem-solving, leadership, and emotional intelligence abilities, which can lead to improved job performance and career advancement opportunities.

01-07-2019 to 04-07-2019 (Phase – II)

**Number of Hours:** 30Hrs + 15Hrs

**Name of Resource Persons:** Madhu Tech Skills

**Target Audience:** IV B. Tech Students

### Description:

The Department of Training & placement cell organized “Coding classes (Phase-I and Phase-II)”, and is specially meant for Engineering final students. During the Coding phase the design of the software system is translated into a programming language format which is used by a computer, this is the main objective of coding. The aim of the coding is to produce high quality system which can be performed in any situation. The programmer removes all the errors related to syntax and format and all the logical errors which find in the programmer during the coding phase.

### Outcomes of the Event:

- techniques for solving problems
- basic computational concepts and elementary data structures
- the edit-compile-link-run cycle from a user point of view
- testing strategies
- the main activities of software development and their interactions, and some of the major problems of software development

## REPORT

**Name of the Event:** Aptitude, Reasoning and verbal Ability

**Topic:** Aptitude, Reasoning and verbal Ability

**Date of the Event:** 13-06-2019 to 22-06-2019

**Target Audience:** IV B. Tech Students

### Description:

The Department of Training & placement cell organized “Aptitude, Reasoning and verbal Ability”, and is specially meant for Engineering final students. This program is helpful to create awareness on best innovative practices and also impart technical knowledge among students about recent developments in Engineering and Science. The sole objective of imparting aptitude training is to make students able to critically evaluate various real-life situations by resorting to an analysis of key issues and factors. This Aptitude Training helps them to demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. Verbal reasoning is a test of a skill rather than a test of learned knowledge. This is used to determine a student’s critical thinking skills, as well as their ability to use their own knowledge to solve a problem.

**Outcomes of the Event:** After completing this training course, students will be able to

1. Enhance the Aptitude Round Clearing ability in interview process
2. Solve the real-time problems for performing job functions easily
3. Interpret the concepts of LOGICAL REASONING Skills
4. Acquire satisfactory competency in use of VERBAL REASONING
