## Report

Awareness on CORONA program was organized by NSS Unit, Devineni Venkata Ramana & Dr. Hima Sekhar MIC College of Technology. All the class teachers have instructed the students to come to the classes with prior awareness of corona.

A clear explanation about the outbreak, spread and prevention of the epidemic was given in the program. NSS volunteers have given a mock drill to students who attended. Preventive measures like washing hands frequently daily and cleaning and spraying the solution in a ratio of 1:9 with water were explained. Students were stressed on "Not to Panic" but to follow the rules to get rid of the infection. In this program, a good number of students representing different classes and departments of the college actively participated. The program informed about the "DOs" & "DON'Ts" to be followed to get rid of the disease, as the infection is very contagious in nature causing serious health problems to the people of many countries including India.

They were given guidelines strictly to follow.

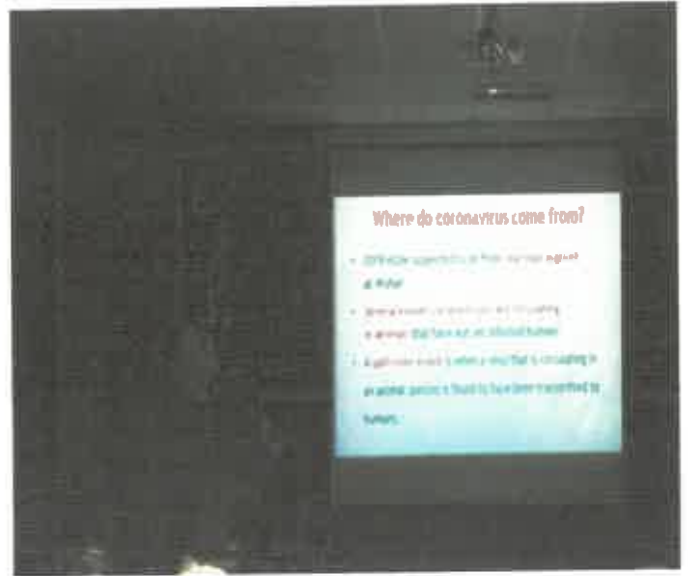

1. Wearing masks
2. Use of sanitizers
3. Maintaining safe distance
4. Avoiding group activities
5. No canteen facility
6. Need to bring their own water sufficiently.

## REPORT

A three-day Hands on learning program on solar power technique was conducted from 29/03/2021 to 31/03/2021 for EEE IV B.Tech students. The following are the contents and benefits of the workshop conducted.

### WORKSHOP CONTENT:

1. Introduction to Solar Energy
2. Types of Solar PV Power Plants
3. Solar PV Power Plant Designing
4. Details about O & M.
5. Practical sessions on finding load calculations.

### BENEFITS OF WORKSHOP:

1. Overview of solar PV technology, characteristics of solar modules and quality issues
2. Impact of accuracy, reliability of solar radiation data on the plant performance.
3. Battery storage technology and selection of battery
4. System design and component sizing for standard regulator and MPPT based regulator.
5. System protection and safety equipment sizing and selection.
6. Lightning protection and systems earthing design.
7. DC and AC cable sizing, selection and estimation of loss due to voltage drop.
8. Site assessment & planning
9. Standalone PV system model design and installation practice

## REPORT

Department of CSE organized Building applications using Python program from 22/03/2021 to 30/03/2021 The following is the report that contains objectives and description of the program conducted. Students participated in an enthusiastic manner.

### Objective of the Event:

1. The main objective of this Python program was to introduce the audience with the fundamentals of Python programming language and motivate the students to enhance their programming skills.
2. To understand the concepts and constructs of Python

### Description:

1. Introduction to Programming.
2. Data Types & Variables.
3. Text and Images.
4. User Input.
5. Conditional Statements.
6. Arithmetic Operators.
7. Functions.
8. Parameters.
9. Lists.
10. Loops.
11. Data Visualization.
