Dear Srilekha:

Congratulations on your admission as a classified graduate student to University of New Hampshire Edwardsville! You should be extremely proud of your academic accomplishments, and I am pleased to welcome you to the SIUE community for Spring 2023.

Now that you are admitted to SIUE, I want to help ensure you have a successful transition. Enclosed is your Departmental Decision Form, which may include any conditions pertinent to your admission. Please contact your graduate program director/advisor as soon as possible to discuss and finalize your enrollment. If you are currently attending an institution other than SIUE, your official degree-bearing transcript should be sent directly from the degree-granting institution electronically to siueapps@siue.edu or by mail:

SIUE Office of Graduate Admissions

Your transcript must clearly state the degree you were awarded. A hold may be placed on your account and prevent you from registering for the next term if we are unable to verify receipt of your bachelor's degree.

You can now activate your student ID and e-ID, which provides you with access to many services at SIUE. Use the enclosed instruction sheet to activate your e-ID.

I encourage you to visit Blackboard (bb.siue.edu) and browse through the Graduate Students tab of **SIUE 101** for tools to help you succeed in completing your degree. You will find information about parking, registration, childcare, graduate assistantship opportunities, the online graduate catalog and more.

Congratulations again on your admission to graduate school. Remember to check your SIUE email regularly, as all correspondence will be sent there. If you have questions, please feel free to call the Graduate School at 618-650-3010 or visit us in Rendleman Hall, Room 2202. You can also connect with us on Twitter and LinkedIn. I hope you are as excited as we are to have you join the SIUE community.

LETTER OF RECOMMENDATION

I am writing to you in support of **Mr. MALINENI SAI VENKATESH** and his desire to attend your university for doing Master's program. I have assessed him in the subject "DATA STRUCTURES THROUGH-C". I think some of my observations are worth mentioning while I pen down my letter recommending him to study at your university.

To begin with, he is a perky class participant and brings together an engineer's analytical approach, a keen grasp of basic facts. He is a self-starter and likes to go beyond the theoretical point of view, to the practical application of subjects. Other than the stipulated work in class, he has taken up several other initiatives. His equal commitment and sincerity towards his studies and extracurricular activities impressed me immensely.

Mr. MALINENI SAI VENKATESH possesses a very fine personality for which he is liked by one and all in the department, with his friendly disposition, he can fit into any team. He has a theoretically well-backed approach to solving problems, which clearly displays his innovative and experimental skills. His understanding of concepts with ease makes him an ideal candidate for any kind of work.

He is an ambitious and career-oriented person who believes in reality and completing the work meticulously. He keeps himself updated on the latest developments and goes through which was evident from the technical discussions and interviews I had with him. I am confident that he will continue to display the same commitment and diligence. Hence, I strongly recommend him for admission into your university. I wish him all the best in his future.

D. Prasad
