Report on the student attributes facilitated by the Institution

The DVR & Dr. HS MIC College of Technology has diligently fostered the cultivation of desirable qualities in its students through a comprehensive code of conduct. This code not only equips them for success in both personal and professional spheres but also ensures their holistic growth. Striking a harmonious equilibrium between the academic curriculum, co-curricular involvements, and extracurricular engagements is imperative. Co-curricular activities provide a platform for students to hone specific skills and showcase their non-academic talents. On the other hand, extracurricular pursuits enable students to collaborate effectively, gaining crucial life skills in the process. The institute instills in students a strong sense of self-worth and nurtures an environment conducive to positivity and productivity. Guided by a profound sense of responsibility, they play a pivotal role in propagating the exceptional quality standards of DVR & Dr. HS MIC College of Technology across diverse regions and nations where their influence extends.

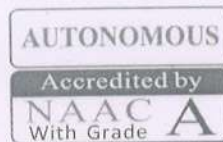

The institute employs a robust student counseling process to establish a harmonious and trust-based relationship between teachers and students. This connection continues to thrive even after students graduate from the institute. The Students' Council, comprising proactive members, frequently engages in committee participation, serving as advocates for their peers' viewpoints and concerns. This council takes an active role in orchestrating programs aligned with student interests, offering a platform for open discussions. Its overarching purpose lies in cultivating and nurturing a thriving campus community, ensuring a successful and conducive academic environment.
